SUMMARY

I'm a product design leader with 12 years of experience, bringing clarity to ambiguity. From 0-to-1 startups to a 100M+ user platform at ESPN/Disney, the job has always been the same: turn a messy problem into something a team can build against. I ship design that moves numbers, bounce rate, app ratings, funnel conversion - not just decks.

ROLES & RESPONSIBILITIES

- ▶ Set product design vision and multi-quarter roadmap for a 100M+ MAU platform, aligning product, engineering, editorial, and business stakeholders.
- ▶ Lead and mentor a design team: 1:1s, career ladders, performance reviews, day-to-day craft standards.
- ▶ Own design system governance across web, iOS, Android - components, tokens, documentation.
- ▶ Run design ops end-to-end: stakeholder reporting, and cross-team alignment across the org.
- ▶ Establish and scale AI-assisted design workflows for the team.
- ▶ Drive strategic product decisions (e.g. reach vs. depth trade-offs) in partnership with product and engineering leadership.

EXPERIENCE

Lead Product Designer

2021 – Present · 5+ yrs

ProximityWorks (Employee) · Client: ESPNcrinfo

- ▶ Prioritized casual-user experience over power-user density in the homepage redesign (casual users drove 80% of traffic); validated by 30% bounce-rate reduction and 15% lift in returning sessions.
- ▶ Redesigned the match page IA (8-15 - 3-8 tabs, match-state-based structure + progressive disclosure) - time on page up 50%, page load 2x faster, page views up 30%.
- ▶ Built ESPNcrinfo's design system to 100+ Figma files, 50+ components; reduced design-to-dev handoff by 50%, enabling 3x more features shipped

TOOLS

DESIGN

per quarter across 100M+ users.

- ▶ Drove native app launch on iOS and Android (hybrid to native); contributed to app rating improving from 3.4 to 4.5.
- ▶ Ran AI-workflow workshops for the design team; reduced concept-to-prototype time by 35%, freeing 10 hrs/week for strategic work.

Sr. Product Designer

2019 – 2021

Decimal · Gurgaon

- ▶ Led design for Saarthi (2-sided NBFC lending marketplace) and Vahana (no-code platform adopted by internal teams); built 2 design systems, reducing screen production by 40% and enabling 6-month MVP delivery for Vahana.

Product Designer

2018 – 2019

FabHotels · Gurgaon

- ▶ Redesigned the hotel listing page and full checkout funnel - made pricing, discount placement, and tax display decisions to optimize for click-through and conversion; reduced booking funnel drop-offs ~15–20%.
- ▶ Led end-to-end user research - on-road interviews, heatmapping, and session recordings - synthesized into insight reports that directly shaped design decisions.

UX/UI Designer

2014 – 2018

Cognizant · Gurgaon

- ▶ Built PocketDash, a campaign dashboard, and a chatbot for American Express - B2B tools for tracking offers, conversions, and performance.
- ▶ Worked across emerging tech (AI, AR, iBeacon, data science) for global enterprise clients - built my UX foundation here: user interviews, persona mapping, journey mapping, heuristic evaluations, and end-to-end interaction design across complex B2B products.

Web Designer

2012 – 2014

DogSpot · Pyrumas · Gurgaon

- ▶ Transitioned from front-end development into product design; redesigned e-commerce and service product experiences across education, travel, and transport domains.
