SUMMARY

12-year product design leader with portfolio-level strategy experience and a track record scaling design orgs—from 0-to-1 systems at startups to leading design and design ops for a 100M+ user global platform (ESPNCricinfo/Disney). Built and led design teams, owned multi-quarter roadmaps, and drove measurable impact: app rating 3.4 → 4.5, 30% bounce-rate reduction, 3x feature velocity via design system adoption. Embed AI daily across design systems, workflows, and team capability-building.

EXPERIENCE

Lead Product Designer — ESPNCricinfo 2021 – Present · 5+ yrs
ProximityWorks (Employee) · Client: ESPNCricinfo

- ▶ Built ESPNCricinfo's design system to 200+ Figma files, 100+ components (web, iOS, Android, dark mode, multilingual) — reduced design-to-dev handoff by 50%, enabling the team to ship 3x more features per quarter and standardizing UI consistency across 100M+ users.
- ▶ Led homepage redesign championing casual users (80% of traffic); reduced bounce rates ~30% and improved returning sessions ~15%.
- ▶ Drove native app launch on iOS and Android (hybrid to native transition), including Dynamic Island and pinning features — contributed to app rating improving from 3.4 to 4.5.
- ▶ Own design ops end-to-end: ZeroHeight documentation, stakeholder reporting, and cross-team alignment across the ESPN/Disney org.
- ▶ Lead, and grew a 2-person IC team; conducted bi-weekly 1:1s, defined career ladders, and delivered performance reviews.
- ▶ Established AI-assisted workflows (Figma AI, Claude) for the design team; ran 4 workshops that reduced concept-to-prototype time by 35% and became the team's default practice, freeing 10 hrs/week for strategic work.
- ▶ Set the product design vision and multi-quarter roadmap for ESPNCricinfo (100M+ MAU, 10M DAU), aligning product, engineering, editorial, and business teams on strategic priorities across the homepage, match experience, content, and platform design system.

SKILLS

LEADERSHIP

- Design Leadership
- Cross-functional Collaboration
- Team Building
- Career Development
- Performance Reviews
- Design Reviews / Design Critique
- Mentorship
- Stakeholder Alignment
- Design Governance

EXECUTION & STRATEGY

- UX Research
- Design Systems
- Prototyping
- Information Architecture
- Heuristic Evaluation
- Design Ops
- AI-Augmented Workflows
- Design Tokens, Patterns & Documentation
- Component Architecture
- Design System Governance
- Product Strategy
- Design Vision
- Roadmap Planning

PROCESS

- Agile / Scrum
- Design Thinking

Sr. Product Designer

2019 – 2021

Decimal · Gurgaon

- ▶ Led design for Saarthi (2-sided NBFC lending marketplace) and Vahana (no-code platform adopted by internal teams); built 2 design systems, reducing screen production by 40% and enabling 6-month MVP delivery for Vahana.

Product Designer

2018 – 2019

FabHotels · Gurgaon

- ▶ Redesigned the hotel listing page and full checkout funnel — made pricing, discount placement, and tax display decisions to optimize for click-through and conversion; reduced booking funnel drop-offs ~15–20%.
- ▶ Led usability testing and user research end-to-end, including on-road user interviews, heatmapping, and session recording analysis to pinpoint funnel breakdowns, synthesized into insight reports that shaped design decisions.
- ▶ Contributed to FabHotels' first design system, initiated by the design manager.

UX/UI Designer

2014 – 2018

Cognizant · Gurgaon

- ▶ Designed AI, AR, data science, and iBeacon-driven solutions for American Express, Telstra, Prudential, and Singtel Optus.
- ▶ Built PocketDash, a campaign dashboard, and a chatbot for American Express — B2B tools for tracking offers, conversions, and performance.
- ▶ Led research-driven design for Papa John's (heuristic evaluation, working-hours estimation, concept pitch), plus employee/patient management tools and an in-house event app.
- ▶ Established core UX practice — research, wireframing, journey mapping, UI execution — marking the shift from front-end dev to product design.

Web Designer

2012 – 2014

DogSpot · Pyramas · Gurgaon

- ▶ Transitioned from front-end development into product design; redesigned e-commerce and service product experiences across education, travel, and transport domains.
